

A family-owned
WV getaway!

Who We Are

Since 1851, prominent Americans have traveled to Capon Springs for rest, recreation and rejuvenation. During the late 19th century and early 20th century, the healing spring water was the prescribed medicine of the day.

Family owned and operated since 1932, four generations of the Austin family and co-workers continue the country courtesies of world class resort hospitality. Besides individual getaways, we make Capon an industry “stand out” as a group destination of choice and ideal venue for:

- organizational strategic planning meetings
- leadership training and team building
- association and corporate conferences
- church retreats for adults and families
- senior and specialty groups (bridge, water color)
- multi-generational family reunions
